Dear Elizabeth,

One of my readers tipped me off that many with close ties to the City are claiming if anyone dug deep into the Seminole theater there would likely be indictments, due to the millions of lost dollars.

Therefore, I want to dig as deeply as I can, so I here by submit 2 separate records request under FS. 119. I am requesting electronic copies of all electronic records.

These should be treated as 2 separate request, and should be billed separately and 30 minutes of time waived for each.

1) I would like all records pertaining to the board or directors of th Seminole Theater;

and

2) I would like all financial records related to the Seminole Theater since 1/1/2007.

I look forward to a quick response and delivery of the requested records.

Thanks.
